About Me

An experienced backend developer with a solid one-year track record, contributing to car rental and e-commerce projects. Proficient in utilizing C#, JavaScript, TypeScript, and Python, with expertise in frameworks and libraries such as .NET, ASP.NET, Django, Django Rest Framework (DRF), React, and Next.js for project development. Adaptable, collaborative, and adept at managing delivery deadlines, fostering teamwork, and prioritizing project success while working towards common goals.
